What is Design Exchange Waterloo?

Design Exchange Waterloo (DXW) is an informal open forum hosted by a group of undergrad design enthusiasts from the University of Waterloo. The forum provides the perfect opportunity to discuss design, incubate ideas and connect with a diverse group of students and industry professionals through their shared interest in design. DXW's main motivation is to encourage cross-faculty and student-industry collaborations in future design projects.

Who can participate?

Anyone with an interest in design can come and present or attend. Employers seeking design talent are encouraged to attend.
